

PRAJVAL MAHADEV INJAR

Computer Science Engineering Student

Software Developer | Full Stack Developer | Python Developer | AI Enthusiast

injarprajval@gmail.com | 8788039282 | linkedin.com/in/prajval-injar-8529aa2b2 | github.com/PrajvalInjar

PROFESSIONAL SUMMARY

Computer Science Engineering student passionate about building modern software solutions and AI-powered web applications. Skilled in Python, Java, JavaScript, React, Next.js, SQL, and database management. Experienced in developing full-stack web applications, performing exploratory data analysis, and deploying cloud-based solutions using modern development tools. Strong problem-solving abilities with a keen interest in software development, AI, and emerging technologies.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, SQL **Frontend:** HTML5, CSS3, React.js, Next.js, Bootstrap
Backend: Node.js **Database:** MySQL, Supabase **Tools & Platforms:** Git, GitHub, VS Code, Linux, Vercel
Libraries/Others: Pandas, NumPy, OpenCV

PROJECTS

- ResumeIQ AI** Next.js • React • TypeScript • Tailwind CSS • Supabase • Vercel
 - Developed an AI-powered resume analysis platform evaluating user profiles with ATS-based scoring and personalized feedback.
 - Engineered a responsive, modern full-stack web application emphasizing intuitive user experience and seamless implementation.
 - Integrated Supabase for secure authentication, real-time database management, and user-specific dashboard rendering.
 - Implemented backend workflows for PDF upload processing, ATS score generation, downloadable reports, and secure cloud based storage.
 - Deployed the application on Vercel utilizing version control via Git and GitHub for continuous cloud deployment.
- Customer Sales Trend Analysis** Python • Pandas • NumPy • SQL • Power BI
 - Conducted exploratory data analysis (EDA) on customer datasets utilizing Python, Pandas, and NumPy to identify purchasing behaviors.
 - Executed rigorous data cleaning and data transformation processes to prepare monthly datasets for accurate business reporting.
 - Developed SQL queries to extract business insights and built interactive Power BI dashboards to visualize KPIs and sales trends.
- Electronic Tongue-Based Dravya Identification System** pH Sensor • TDS Sensor • Embedded System • Custom Database
 - Designed and developed a hardware-software sensor system using pH and TDS sensors for accurate liquid sample classification.
 - Integrated physical hardware with a custom database management architecture for seamless, real-time data collection.
 - Collaborated on prototype development to enhance sample identification accuracy and reliability.

EDUCATION

Dr. D. Y. Patil School of Engineering and Management, Kolhapur (2023 - 2027)
B.Tech in Computer Science and Engineering | Expected Graduation: 2027 | CGPA: 6.65
New Model Junior College, Kolhapur (2021 - 2023)
Percentage: 61.50%

CERTIFICATIONS

- Deloitte Data Analytics Virtual Experience Program
- Java Full Stack Developer Virtual Internship – EduSkills (AICTE)
- AI/ML Virtual Internship – Google Developer Club

ACHIEVEMENTS AND ACTIVITIES

- Rural Social Internship - Wadipir, Kolhapur**
 - Coordinated a 28-member team during an immersive rural social internship to address community challenges.
 - Executed strategic planning and proposed actionable solutions, strengthening leadership and communication skills.
- National Level Hackathon Organizer - D.Y. Patil SEM, Kolhapur**
 - Led the planning and execution of a national-level hackathon for over 120 participants.
 - Managed 33+ volunteers for logistics, event registration, and the smooth execution of technical sessions.
- Volunteer - WordPress Open Source Community (WordCamp)**
 - Collaborated with developers and designers across India during WordPress open-source events in 2025 and 2026.
 - Organized event management initiatives, offering participant support and session coordination.
- Event Management Lead - AWS Student Builder Group, DYPSEM**
 - Organized technical events tailored for the AWS Student Builder Group community.
 - Managed logistics, scheduling, and cross-functional team collaboration to guarantee successful event delivery.
